## Lenroot Did Not Argue Before The Supreme Court In The Railway Cases.

# MISTAKES IN NOMINATION PAPERS

## Many Rush To File Papers Before The Closing Hours Of The Office Of The Secretary Of State-- Lists Are Secret.

[SPECIAL TO THE GAZETTE.]  
Madison, Aug. 4.—My attention has just been called by a justice of the supreme court, to the statement in the Milwaukee Free Press to the effect that L. L. Lenroot, of Superior, La. Follette candidate for Governor, made an argument before the supreme court on the railway taxation case. Such statement is erroneous. The supreme court minutes show that Mr. Lenroot did not make an argument before the supreme court on this matter, neither did he file an individual brief, but he filed injunctive papers with the attorney general of the state and Attorney Chynoweth of Madison, for which service Mr. Lenroot received from the state \$3,000. The claims made that Lenroot is a lawyer are so absurd to those who know him personally that they are laughed at in Madison. Lenroot is an expert stenographer, a member of the bar, but not known as a lawyer of any prominence.

**May Be Left Off.**  
Many of the candidates for office who are in large numbers filing their nomination papers, are failing to file with the petitions the declaration required by the primary election law. This declaration is contained in section 5, subdivision 4, of the law, and provides that the candidate shall file with the petition a declaration that he will qualify for the office if he is nominated and elected. Failure to file this required declaration may result in many candidates being left off the primary election ballot. A large number of nominating petitions have been filed in the office of Secretary of State, Houser.

**Busy Scenes.**  
William D. Connor, of Marshfield, who as chairman of the Wisconsin state central committee, directed the last state campaign, for Senator La Follette today filed his nomination for the republican nomination for lieutenant governor at the September primaries. The petitions contain 3,500 names, but it is understood that several times this number have signed for him.

Just before the closing hour of his office, Secretary of State Walter L. Houser, of Mondovi, filed his nominating petitions in his office for the republican nomination for the secretary of state. The petitions contain many names, a great many more than are necessary. Nearly all of the counties of the state are represented. Mr. Houser's opponent, James A. Fear of Hudson, filed his nominating petitions several days ago.

**Other Candidates.**  
Others who filed petitions were: Charles B. Perry, Milwaukee, candidate for the republican nomination for congress in the Third district; W. F. Bradlock, Mather, candidate for the republican nomination for senator in the Thirty-first district; W. J. Cary, Milwaukee, candidate for the republican nomination for congress in the Fourth district; Henry D. James,

# "SALT WATER DAY" ON JERSEY COAST

## Annual Outing of Farmers Who Take Their Yearly Dip Into the Atlantic.

[SPECIAL TO THE GAZETTE.]  
Asbury Park, Aug. 4.—Big Sea Day, or Salt Water Day, the annual outing of the farmers of Monmouth and Ocean counties, was celebrated on the beach hereabouts today, and proved one of the largest gatherings in the history of this time-honored Jersey custom. Monmouth Beach was as usual the scene of the greatest gathering of farmers from the interior of the state. At an early hour in the morning, vehicles of every description began to arrive at the beach, and each carried at least one family bent on a day's outing.

The cottagers and guests at the fashionable hotels along the shores have always made it a point to visit the beach on the afternoon of Salt Water Day for the special purpose of looking at the bathing rigs in which the farmers and their wives and offspring appeared in the surf. In years gone by a pair of overalls and perhaps a jumper for the men and a calico wrapper for the women were considered quite correct for bathing attire, but today, although the suits worn by the women were for the most part evidently of home manufacture; many of them were of modern pattern and attractive in color and style. Many of the men, too, had ordinary bathing suits, so that the spectacle was not nearly so picturesque as it once was. Next Saturday will be observed as Little Sea Day, and again the farmers and their families will gather at the beach for surf bathing and games.

# CHAMPION BAND OF ALL ENGLAND PLAYS

## The "Besses O' th' Barn" Arrive in American For a Tour of the Country.

[SPECIAL TO THE GAZETTE.]  
Asbury Park, N. J., Aug. 4.—In the Casino here today the famous "Besses O' th' Barn" Band gave the first concert of its American tour. The band is known throughout Europe as the champion band of England, because of the many prizes it has won since it first came into prominence in 1818, during the reign of George III. One of the first prizes was captured by this organization in the procession celebrating the coronation of George IV, and another at the time of the coronation of the late Queen Victoria. In 1892 it held every challenge cup in Great Britain.

After filling their engagement here the band will play at the Toronto and Pittsburgh expositions and concerts will be given in all the principal cities to the Pacific Coast, whence the organization will sail for New Zealand.

# COTTON GROWERS HOLDING A SESSION

## Arkansas Men Meet to Discuss the Trade and Outlook of Crops this Year.

[SPECIAL TO THE GAZETTE.]  
Little Rock, Ark., Aug. 4.—Pursuant to the call of President B. H. Burnett of the Arkansas division of the Southern Cotton Growers' association, the planters of this state held county conventions today to discuss the cotton situation and outlook and also to take steps to strengthen their organization. The mass conventions passed strong resolutions condemning "future selling" in all its forms, and renewing the pledge of the growers to support the Southern Cotton association in its movement to free the planters from the dictates of the Wall street speculators.

# ECLIPSE OF MOON IS DUE THIS EVENING

## Can Not, However, Be Seen in Janesville—Of Astrological Interest Only.

[SPECIAL TO THE GAZETTE.]  
Washington, D. C., Aug. 4.—A total eclipse of the moon is on the schedule for this date, but only the astronomers of the far western section of this continent have the opportunity to observe it. In the eastern portion of America it is invisible. The total eclipse begins at 8:59, San Francisco time, and at 4:41 a. m. at Ogden.

# THIRTY WORKMEN OF MOSCOW KILLED BY THEIR OWN BOMBS

## Which They Had Prepared for the Reception of the Troops and Which Prematurely Exploded.

[BY ASSOCIATED PRESS.]  
Helsingfors, Russia, Aug. 4.—The strike of employees on all street railroads and in the factories here is over. All leaders of the socialistic red guards have been arrested and the organization is broken up. Only 30,000 at noon.

St. Petersburg, Aug. 4.—Probably not more than thirty thousand workmen went out when the general strike went officially into force at noon today.

The printers, longshoremen, and a number of factory employees joined in the strike this afternoon. Reports of renewed firing at Cronstadt reached here this morning but telegraph communication is now cut off and it is impossible to ascertain what has occurred. A squadron of warships arrived at Cronstadt last night. According to reports from "Reval" trouble there is not over.

# Plan to Liberate Betrayed.

Warsaw, Aug. 4.—A plan to liberate political prisoners here was betrayed to the authorities today. Several civil servants and policemen who were implicated have been arrested. Eight passengers were wounded in the defense of a train. Among them was the consul-general of Brazil. Train robbers today between Liban and Haftoff, stole forty thousand dollars in government money.

**Bombs Prematurely Exploded.**  
London, Aug. 4.—A Moscow dispatch says that a number of workmen there today had prepared to receive with bombs a detachment of troops sent against them when the bombs prematurely exploded by accident, blowing thirty workmen to pieces and wounding many others. The soldiers were unhurt.

**Two Killed at Station.**  
Moscow, Aug. 4.—A bomb exploded in the Kazan railway station today and two persons were killed.

## Was Organized in 1806 and Celebrates Its Hundredth Birth in Royal Manner.

[SPECIAL TO THE GAZETTE.]  
Albany, Vt., Aug. 4.—This northern Vermont town, which was organized on March 27, 1806, is in gala attire in honor of its centennial, which is to be celebrated with public exercises during the week, beginning tomorrow. As the commemoration will take the form also of an Old Home Week it is expected that a great number of former residents will be present. The program provides for outdoor sports, historical exercises and fireworks.

# POLICE SCANDAL IS UPSETTING VIENNA

## The Viennese Police Are Said to Be Full of Corruption by Papers.

[SPECIAL TO THE GAZETTE.]  
Vienna, Aug. 4.—The sensational revelations now being made regarding the corruption of the Viennese police recall the similar disclosures made in the great Lexow investigations in New York city. The stories printed in the Viennese press are almost incredible, but the newspapers declare they are prepared to prove their statements. Among these are allegations regarding certain alleged dressmaking establishments and the terrible treatment which white girls slaves have to undergo until they submit to every infamy. It is said that a mother, who found her daughter in one of these establishments, complained, but without avail, and the assertion is openly made that the police protect such places.

# ILLINOIS FACES CRISIS IN ITS POLITICAL LIFE AT THE POLLS TODAY

## Is Fighting For The Seat Of Shelby Cullom In The United States Senate.

"If the people are for me, I will be re-elected. If they are not, I won't be, and that is all there is to it!"  
SENATOR CULLOM

[SPECIAL TO THE GAZETTE.]  
Chicago, Aug. 4.—Today the state of Illinois is having her first taste of the primary election law enacted by the recent session of the state legislature. A general primary is in progress for state, congressional and senatorial nominations.

Public interest centers chiefly in the contest between former Governor Richard Yates and Senator Shelby M. Cullom for the latter's seat in the United States senate. The primary law provides that the vote for senator shall be only advisory for the sole purpose of ascertaining the sentiment of the electors of the state. But it is probable, in the opinion of most politicians, that the senatorial contest will be finally settled by today's primaries. Of course, if the primary vote should be pretty evenly divided, so that neither candidates should have a decisive majority, in the state convention, the contest might be prolonged and carried into the party caucuses in the legislature next winter.

If one may judge by what appears on the surface, the re-election of Senator Cullom seems assured. The Yates men concede that the senator has the best organization. But they lay great stress on what the rank and file of the people will do. The vast majority of the voters, they declare, will express their real sentiments at the ballot box today. But the Cullom forces evidently are not worrying. They are of the opinion that the admiration for the veteran senator is deep-rooted throughout the state, while, furthermore, the factional warfare among the republicans of Cook county is bound to work more harm to the Yates interests than to those of Cullom.

**As Viewed in Washington.**  
Washington, D. C., Aug. 4.—The primary election in Illinois today is attracting much attention here, and the final result will be awaited with keen interest. It is purely a factional contest, within the republican ranks, it presents nevertheless

# ILLINOIS RESERVES START ON ANNUAL CRUISE TODAY

## Ohio, Michigan And Minnesota Will Join With Them On The Trip This Summer.

[SPECIAL TO THE GAZETTE.]  
Chicago, Aug. 4.—The naval reserves of the states of Illinois, Ohio, Michigan and Minnesota will make a cruise together beginning today.

In this cruise, which was suggested by Captain W. P. Purdy, commanding the Illinois Naval Reserves, and which was heartily approved by the Navy Department in Washington, the reserves of Illinois will be represented by a division of men on board the cruiser Dorothea. Ohio will send two vessels—the Essex, and the Hawk—manned by seamen from Cleveland and Toledo, respectively. Michigan will bring to the rendezvous the former gunboat Yantic, which, like the Essex, has made many a distant cruise in the regular navy. From Minnesota comes the Gopher, formerly borne on the navy register as the Fern, which will be manned by the Naval Reserves, hailing from Duluth.

Mothing this flight of sea-gulls will be that fine old specimen of obsolete marine architecture, the Wolverine, formerly known in the regular navy as the Michigan.

The advantages of a combined cruise of the naval reserve forces of the lake states will be appreciated by every expert in naval drill and discipline. Not only will the men of each state take an exceptional amount of pains to make the best showing possible for the sake of comparison with the reserves of neighboring states, but the opportunities for exercise on an unusual scale it is believed will raise the efficiency of all crews participating in the week's manœuvres. When Captain Purdy brought the idea of this rendezvous to the notice of the Assistant Secretary of the Navy, who has the affairs of the Naval Reserves under his special charge, Mr. Newberry who was an experienced commander in the Naval Reserve of Michigan before he was called to the second place in the navy department, immediately gave his hearty support to the suggestion and promised that he would himself attend the rendezvous, if his official duties permitted him to do so.

It is expected, also, that three officers from the North Atlantic fleet will be detailed to duty with the Naval Reserve squadron, and possibly Commander C. E. Vreeland from the Navy Department will be present to make suggestions to the reserves and to learn their needs and possibilities. It is the intention of the navy department that Commander Henry Morrell, commanding the U. S. S.

Wolverine, shall act as flag officer of the squadron of Naval Reserve vessels, which will rendezvous at South Manitowish island near the head of Lake Michigan on Monday, Aug. 6. The different divisions of the Illinois Naval Reserve have been making weekly cruises aboard the Dorothea ever since June 30, but the exceptional feature of the early august week is the fact that the vessels of other states will be present, and the exercises will, therefore, be of a more interesting character than they are usually.

The commanding officers of the ships will be as follows:  
Dorothea, Captain W. P. Purdy, Essex, Lieutenant Commander A. F. Nicklett, Hawk, Lieutenant F. B. Seamon, Yantic, Commander F. D. Standish, and Gopher, Commander G. A. Eaton.

Following is the schedule of drills ordered by the flag officer of the squadron:  
Monday, August 6.—Boat drill, by ships under pars. school of ship and section, night drill with very signals.

Tuesday, Aug. 7.—Fleet boat drill under oars and sails, school of ship and section, night drill with Ardois signals.

Wednesday, Aug. 8.—Landing party, fleet manœuvres, torpedo attack, repelling between 7 p. m. and midnight by ships having searchlights.

Thursday, Aug. 9.—Rifle and pistol matches—five men from each ship; fleet manœuvres.

Friday, Aug. 10.—Boat races over a one-mile course for 10-oared cutter, 6-oared gigs and 4-oared dinghies. All ships will be inspected as opportunity offers, and a battalion inspection will take place "a close of the landing expedition on Wednesday; light equipment being called for. Exercising at picking up a "man overboard" will take place while the squadron is under way.

Members of the finance and lake shore protection committees of the Racine council have decided to purchase and put in 250 cords of stone and brush, and to build a double row of piles from the end of Seventh street into the lake, this row being 200 feet long. It is contemplated, too, to build a 1,000 foot pier into the lake at the south city limits. If these plans materialize the long cherished project of parks on the lake shore may be made a reality.

Corrupt Practices in Politics Dis-  
cussed by State University Gradu-  
ate in State Legislative Ref-  
erence Department.

Madison, Wis., Aug. 14.—The pres-  
ent agitation over campaign ex-  
penditures and contributions to cam-  
paign funds by insurance companies  
has made necessary a thorough  
review of election legislation in the  
United States and abroad for refer-  
ence in case the Wisconsin legisla-  
ture frame further laws for the  
prevention of corruption in this  
state. Such a review was undertaken  
by Miss Margaret A. Schaffner, a  
graduate of the University of Wiscon-  
sin, who received her doctor's de-  
gree from the university in 1932. The  
results of her work are embodied in  
a recent bulletin of the State Legisla-  
tive Department.

She, near ap-  
proach of the state elections give an  
added interest to the work, which  
includes American and foreign inter-  
pretations of the term "political cor-  
ruption," a statement of the purpose  
of limitations, and a review of the  
laws and judicial decisions regarding  
election frauds in nine foreign coun-  
tries, and in every state of the Union.

Corrupt Practices Defined.

Under the British statute corrupt  
practices at elections include bribery,  
treating, undue influence, person-  
ation and aiding, abetting, counselling  
and procuring the offense of person-  
ation, and knowingly making a false

statement. In Wisconsin, one who  
files sworn statements of their cam-  
paign expenses. Twenty-seven states  
have legislated against election bets;  
thirty against giving away liquor on  
election day; and forty-four against  
various kinds of bribery for the pur-  
pose of influencing votes.

The Law in Wisconsin.

In Wisconsin the penalty for bribery  
at any election is imprisonment; and  
at any caucus or preliminary meeting,  
fine or imprisonment or both. Con-  
viction of bribery excludes from  
right of suffrage unless restored to  
civil rights. Office obtained by bri-  
bery is to be deemed vacant, accord-  
ing to law. A fine and loss of vote  
is the punishment for betting on an  
election. The amendments made last  
year provide prohibition of contribu-  
tions of money to aid the nomination  
or election of legislators by non-res-  
idents of the district, with an impris-  
onment penalty for violation. This  
does not apply to payment of his own  
expenses by a candidate, or to contribu-  
tions to committees. Every candi-  
date must file a sworn statement  
showing each item larger than \$5 con-  
tributed, disbursed, or promised by  
him or by others in his behalf, with  
dates of expenditure, names of per-  
sons receiving money, and the purpose  
for which each sum was paid. The  
district attorney institutes prosecu-  
tions for violations, and the fine for  
such violation is from \$25 to \$500. A  
similar record is kept by the treasur-  
er of each campaign committee, and  
an imprisonment penalty for viola-  
tion is provided.

The 1905 laws also prohibit con-  
tributions by corporations, with a  
fine penalty of \$100 to \$500, or im-  
prisonment of from one to five years,  
or both fine and imprisonment, in  
the discretion of the court.

## PLANS FOR THE NEW

## M. G. JEFFRIS HOME

Structure Will Be Built of Galesburg  
Brick According to Plans of  
Madison Architects.

M. G. Jeffris has accepted the plans  
drawn by a Madison firm of archi-  
tects for the palatial home to be  
erected at the corner of East Street  
and St. Lawrence Place. The exca-  
vating work for the basement is well  
under way and the masons will be  
beginning their labors next week. The  
structure is to be 42 by 38 feet in  
dimensions and will contain a living  
room 13½ by 40 feet in size with a  
large fireplace. Red brick of Gales-  
burg manufacture, similar to that  
used by the city for cross-walks, will  
be used in the construction. The resi-  
dence will be ready for occupancy some  
time after March, 1937.

A recently excavated house at Pom-  
peii, which is said to rival the "House  
of the Vetri" in beauty, will be opened  
to visitors there in a few days. It is  
called "The House of the Gilded  
Cupids," the walls being adorned with  
glass discs, enameled in gold, with fine  
miniatures of cupids.

## H. PERSSON,

## TAILOR

329-331 Hayes Block.

I wish to announce the ar-  
rival of a select stock of wool-  
ens for fall and invite your in-  
spection before ordering else-  
where.

I can assure you the best of  
style and workmanship as I  
employ the best of tailors. I  
have had twenty years of ex-  
perience in first class trade in  
large cities. It is no longer  
necessary to go away from  
Janesville for your clothes—  
you secure as good if not bet-  
ter service at home. Early se-  
lections are most desirable.

## H. H. BLANCHARD

## A Candidate.

To the Voters of Rock County:

I hereby announce myself as a can-  
didate for the office of district attor-  
ney for Rock county, Wisconsin, on  
the republican ticket, and at the pri-  
mary election I solicit your support  
to secure my nomination for said of-  
fice. Since I became a voter I have  
voted the republican ticket. My first  
vote for president of the United States  
was cast for Abraham Lincoln, and I  
have voted for every republican nom-  
inee for that office since. I was ad-  
mitted as an attorney to practice in  
the circuit court of Wisconsin in 1893.  
I was admitted to practice in the su-  
preme court of Wisconsin in 1872.  
I have been a member of the Rock  
County Bar Association since 1874 and  
a member of the State Bar Association  
since 1881. Through your kind as-  
sistance I shall be elected to the office  
of district attorney. I will exert my-  
self to the full extent of my power to  
discharge the duties of said office.

Yours truly,  
H. H. BLANCHARD,  
Attorney at Law,  
Office in Sutherland Block,  
Janesville, Wisconsin.

**OUR SATURDAY NIGHT.**  
"Equal rights to all special privileges to none," is the watchword of populism, and is the motto adopted by Thomas E. Watson for the title page of his magazine. Mr. Watson was the candidate for president on the populist ticket two years ago and at the close of the campaign he established a magazine and has since been engaged in vigorously advocating the doctrines of his political creed.  
He is an attorney of some prominence in Georgia, his native state, is a good thinker and careful writer and is the best champion of the old Sunflower state party that the country has produced.  
The people's party, a sort of intangible aggregation, which burdens the atmosphere these days and which includes what is known as the independent voter, men, too, pure for any party, Mr. Watson appropriates as unorganized populists, and claims that the seed sown in Kansas and Nebraska years ago has taken root and is yielding a thousandfold.  
Populism, according to Watson, advocates government and municipal ownership of all public utilities, but protects the right of the individual. This he claims is Jeffersonian democracy pure and simple, and Watson was a democrat long before he was a populist.  
That the democratic party is rent in twain is generally recognized and it is possible that the remnant not captured by Bryan may finally be rounded up by Tom Watson. There is also an element in the republican party, noted for restlessness and discontent. This element poses as reformers and it would not be difficult for it to expose populism or any other creed under skillful and designing leadership.  
An era of long continued and unusual prosperity is responsible to large extent for conditions now existing in the political world. Wealth has accumulated so rapidly that the feeling is more or less prevalent that in some way it is not evenly distributed and socialism in the large centers of population is making rapid strides.  
There is but little danger, however, that this imposed fanatical creed will gain permanent foothold on American soil.

While Mr. Watson advocates strongly the doctrine of populism, he attacks with equal vigor the principles of socialism and as a result the disciples of that peculiar faith denounce him in strong terms.  
The city of Cincinnati has a socialist preacher by the name of Herbert Bigelow, who took occasion recently to announce that on the following Sunday he would "take a fall" out of Tom Watson. This he proceeded to do and Watson devotes several pages of his August magazine to "Brother Bigelow" and socialism.  
After winding up the reverend gentleman and his doctrine to the queen's taste he refers him to the census report, recently issued by the government, showing the amount of wealth owned by the negroes of this country.  
According to this report the negroes own 740,000 farms, averaging 51 acres each and valued at \$500,000,000. They also own cows, horses and other live stock valued at \$35,000,000.  
Forty years ago these negroes all occupied the dead-level of poverty. On one and the same day they stepped from slavery into freedom, all together.  
Never before in the history of the human race did so great a number of men, commerce, live under conditions which were so equal. They stood there in the southern states, the millions of them, on the common ground of freedom and poverty, burdened with disadvantages which applied to all and beckoned onward by incentives and encouragements and advantages which all could share.  
After pointing out the fact that the negroes who own the 740,000 farms had no better start in life than the negroes who own no farms, because they were on a dead-level 40 years ago, so far as money was concerned, he demonstrates that property is the heritage of the man who works and saves, and his title to it is sacred. Then he asks the pertinent question, "What does socialism say to these negroes?" It says:

"Surrender your homes and farms. They are not yours. You have robbed your black brothers. Bring us your title deeds that we may destroy them. No private ownership of land shall be allowed. Keep your mule, keep your cow, but surrender your farm. Those seven hundred and forty-six thousand farms do not belong to you who bought them, to you who hold the deeds to them. Those farms belong to all the negroes in common. You are all brothers in black. You are equal; the land belongs as much to one as to another. Fetch all your land papers that they may be canceled. Then, out of the 740,000 farms we will make one great big farm, and this farm shall belong to all the millions of negroes in what we melodiously describe as 'social' ownership. We don't mean confiscation; we don't mean that you, the 740,000 farm-owning negroes, shall cease to be the exclusive owners of those farms of yours, and that all the millions of negroes who now own no farms shall hereafter be as much the owners of your land as you will be. 'But you may keep your cow.' And hereafter when the landless millions of negroes make a pasture out of your 740,000 farms, we will grant you the glorious privilege of turning in your cow. God deliver us from any such justice as that!"

"Ah, Brother Bigelow! It may be that you are lending yourself to the sowing of that which makes men the reapers of the whirlwind.  
"Can our system of government be radically wrong, in itself, when the negro race—certainly not the most provident of races—can in forty years, earn and own 38,000,000 acres of land in a civilized country? Think of it! Thirty-eight million acres, 59,000 square miles, a domain equal to all the New England states grouped together!"  
"Ponder it well, Brother mine! Then, peradventure, the next time you mount the pulpit to preach against me, you may feel inclined to state to the landless workmen who listen to your eloquence, that the state of Texas is even now inviting home-seekers to come to her and settle upon six million acres of her bountiful soil.  
"Texas offers to sell land to your congregation, and to all others, at one dollar per acre, on forty years' time, at 5 per cent interest.  
"Do your followers really want 'access to land'?"  
"Then, there's the chance. One dollar per acre, a credit of forty years, 5 per cent interest, and six million acres!"  
"Will Brother Bigelow's followers go to Texas and settle upon that land?"  
"Will they enter upon any section of the 300,000,000 acres of public domain which Uncle Sam invites them to accept as a home and a farm? No. Not one of them will do it. They will remain in Cincinnati, in Chicago, in New York, and in other great centers, and will continue to howl about 'land monopoly.' They don't want a farm in Texas, or in any other rural community where there is no land monopoly. So desperately determined are they to get snake-bitten that they camp right over the hole where the snake stays. They stubbornly refuse to go where there are no snakes. They want 'collectivism'—which being interpreted means that they want a share of the accumulated wealth of Cincinnati, Chicago and New York.  
"No Texas for them. No, indeed. Their farms must be laid out for them in Cincinnati, in Chicago, in New York, and other centers of wealth and population.  
"Beat it about the bush as much as you like, but that's what socialism puts into the head and heart of the average socialist."  
That's the best object lesson and the best argument against socialism ever published and Tom Watson is doing the country good service.  
There may be new parties and the revolution now going on in the political world may be but the commencement of a new era, but it is safe to say that socialism will not be a prominent factor. The future of the republican party depends upon the wisdom displayed in its management. It has met many emergencies, and while present conditions are peculiar it will prove equal to the occasion.

**PRESS COMMENT.**  
Can't Lose 'Em  
Milwaukee Sentinel: Schlatter, the 'divine healer,' has turned up again. It is awful hard to shake some people.  
Here's a Good Suggestion  
Sheboygan Journal: Janesville folk suspect that Lake Koshkonong carp are being sold in the east as canned salmon. Let them look well into their own tin cans.  
There's No Noticeable Diminution  
Chicago Tribune: An accurate dog census probably would reveal the fact that the visit of the Igorrotes to this country has not been entirely in vain.  
What Bob Doesn't Understand  
Oshkosh Northwestern: Senator La Follette might hedge while there is yet time, but the trouble is he has had his own way so long he probably cannot understand that this time the people are not with him.  
Chance for Real Practice  
Green Bay Gazette: This is the time of the year when the militia is given its field work. Why not turn its attention to the capture of Dietz. From all accounts it would get a thrill that would be immensely practical.  
In Friends' Hands, but Busy  
La Crosse Leader-Press: Although most of the candidates were 'induced' to come out when they didn't really want it, and though they are in the hands of their friends, they are not allowing the centration of their petitions to be neglected.  
Want Phenomena Recorded  
Milwaukee Free Press: One of the peculiar developments of current politics is the desire of men who do not know their own minds from one week

to another to write letters to the newspapers informing an interested public that they have changed their mind.  
Andy Should Fire Corey  
La Crosse Tribune: Corey, the steel king, as shown in the evidence deliberately deserted his wife. Two decades to wallow with the high rollers of New York. Mr. Carnegie might forget his library bag long enough to tie a can to the president of his steel trust.  
Recognition for Peoria Woman  
Sheboygan Journal: Mrs. L. A. Kinney, wife of a Peoria, Ill., politician, wrote to President Roosevelt asking him definitely whether he would run again. The President's secretary has written a reply stating positively that the President will not run. For her service in enlightening her country Mrs. Kinney ought to be honored with a statue.  
It's Editor Badour of Oconto, Now  
Green Bay Advocate: With such candidates as Francis R. Singleton, the dashing and accomplished editor of the Green Bay Advocate, for congress in the Ninth congressional district and such a man as Clarence J. Noel of Marinette, the widely known democratic leader, as candidates for secretary of state that district will enter the campaign with strong and forceful men to the fore.

"Pills" Are Obtainable  
Exchange: A reporter on one of the Milwaukee papers has been investigating the sale of cigars in that city and comes to the conclusion you can get them provided you know how. In other words the cigars are on sale in spite of the anti-cigarette law, but the would-be purchaser must be either personally known to the proprietor or have the password; although if the reporter ascertained what the latter is he selfishly refuses to divulge the secret.  
White Man Vs. the Black  
El Paso Herald: Under like conditions, the white man can usually cut back out work out lift out dig and, also, out loaf the black, the brown or the yellow man, which is probably the reason the Aryans dominate the world today. This familiar piece of knowledge is proving true at Panama where the commission has discovered that Jamaica negroes at 80 cents a day are not as good an investment as white men at \$1.00. From present indications, the canal will be dug by Spaniards if enough of them can be secured.

Watch Him Approach Screen Door  
New York Tribune: You can always tell whether a man is married or single when you see him go through a screen door, says 'The Wellington (Kan.) News.' If he is married he approaches the door cautiously, glances nervously around, then takes off his hat and swipes it up and down the door two or three times. He then quietly opens the door about two inches, squeezes himself through and closes it with a quick snap. The length of time he has been married may be determined by the degree of fear and nervousness indicated in his countenance.  
The Devil Outside  
La Crosse Tribune: Mrs. William Ellis Corey, away out in Nevada, got her divorce and wept bitterly at the news.  
William Ellis Corey got a telegram telling him of his freedom to play tag with a dawdy actress, and the wine flowed merrily at Delmonico's until dawn was near.  
A multi-millionaire steel king, with heart of steel if steel were as vicious as it is hard, satiated with corrupt money grabbing, pines to squander his riches in lascivious association with careless women. He puts away his wedded wife, she who strove with him through the years of toil and poverty, in order that this alliance which a Christian church and a life of devotion have sanctified may not interfere with his social debauchery.  
And the Law permits him to do it. When the Law becomes perfect, men of this sort will find bread and water waiting for them in a dungeon. It is the temporal triumph of men like Corey that perpetuates belief in a hell of brimstone.  
Capital Punishment Not Desired  
La Crosse Leader-Press: The Fond du Lac Bulletin, arguing for capital punishment, says that 'there is not a state in the union where imprisonment for life is the penalty for murder where there is not a great deal of agitation in favor of a return to the custom of hanging or electrocution.' This is the first evidence that there is any such agitation in Wisconsin which as a state has never had a capital punishment law. On the contrary the people seem well satisfied with the orderly, law-abiding conditions which have prevailed. This state for the past 50 years and more since it was admitted to the union. The city of Chicago, with a population only 75 per cent of that of the state of Wisconsin, hangs its murderers and has five times as many of them. The abolition of the policy of taking life by law, as a penalty for the unlawful taking of life, is a step toward higher civilization and states committed to the change are usually so well satisfied with the results that they could not be induced to return to the old barbarous plan of killing criminals.

Valiant Fighters of Dietz  
Oshkosh Northwestern: From the story told by Rogich, the wounded survivor of the recent Dietz battle, it would seem that Sheriff Gylland and his six other valiant assistants were about as brave in the face of danger as a boy of school girls in a pasture with a bull. After Rogich was wounded his companions started to carry him from the scene of the conflict, but when they thought they were being pursued by Dietz they dropped their burden and sought safety by hasty flight through the woods, telling Rogich to stay where he was. Poor Rogich did stay until he found that he had been deserted by his erstwhile friends, and then he proceeded to crawl on his hands and knees, keeping it up all that night, and a portion of the next day, until he came to the cabin of a settler, who kindly took him in and cared for him as best he could. And now it is claimed that on account of the delay in having his wounds dressed, together with the ex-

posure and extra exertions in trying to find someone to assist him, Rogich may not recover from his wounds. Such a story places the sheriff of Sawyer county in a very unfavorable light, and likewise reflects on the character of the men he has been employing to capture John Dietz, 'dead or alive.' Whether the latter is right or wrong in his valiant defense of what he undoubtedly considers his rights, the general public cannot fail to admire him for the pluck and courage he has exhibited in holding the fort and protecting his property.

**JULY WARM MONTH WITH LITTLE RAIN**  
Average Temperature Was 72.4—Rain One Day and But Two Others.  
Cloudy.

July was surely a warm, dry month. The temperature remained high much of the time and there was but one good rain through the whole thirty-one days. Showers were often threatened but there were but two days that can really be recorded as cloudy. The average temperature for the period was 72.4, the average high 78.9 and the average low 65.9. The table of conditions and high and low temperatures is appended:

**JUMPED HIS BOARD BILL FROM 2ND STORY WINDOW**  
Guest at Smith's Hotel Took His Departure Without Formality of a Farewell.  
An open window in the second story and footprints in an ash heap on the ground acquainted the clerk at Smith's hotel and Landlord Teubert of a recent morning with the fact that a guest owing a two weeks' board bill had quietly and unostentatiously taken his departure without the formality of a farewell word. The bashful boarder had simply packed his grip in the light of the moon and after allowing it to wing its way to the refuse pile had gently dropped himself there, after and faded away in the quiet night.

**Advocate Mice in Coal Mines.**  
Some authorities on mining say that white mice ought to be kept in all coal mines, so that the little animals can be used to test the condition of the air. It is known that they are much more sensitive than men to atmospheric impurities of the kind which cause deadly accidents in mines and it is argued that whenever or wherever a white mouse becomes incapable of motion because of air poison it should be taken as proof that miners must seek safety.

**Final Clearance of the Wool Suits**  
Begins Monday, August 6th.  
**...Choice of Forty-Seven at \$8...**  
If you intend to go on that excursion you will need one, for there is nothing so desirable for traveling as a tailored suit. This sale includes all Suits that were up to twenty-five dollars, many of them being in black and navy blue with a few mixtures—none, however, that were less than fifteen dollars. These are Suits you can wear right up to the time for winter garments and at this price every one is a bargain worthy the name. The sizes are well assorted, being as follows: 3-size 32, 6-34, 13-36, 7-38, 7-40, 3-42, 1-44; 2-14 Misses' size, 5-16 Misses' size. All on sale at a choice **\$8**

**Separate Eton Coats**  
Fifteen separate Eton Coats in black silk and in broadcloth, former prices \$10.50 to \$15; now on sale, a choice. **\$7.50**  
Every one is lined throughout with white satin.

**Pongee Coats**  
Three that are 27 inches long, were \$10 and \$12, now at **\$4.50**. Two that are 50 inch lengths—one was \$18; the other \$20, now at **\$10**. Above are full loose backs. Two full length garments, fitted at waist, beautifully trimmed; one was \$27.50, the other \$30; now at **\$13.50**.

**Covert Coats**  
Just twelve Covert Coats, 45 inch length, full loose back, were \$10 to \$15.50, now at **\$6.75**. A number of regular length Covert Coats, fitted backs, full lined; now a choice **\$5**.

In the above lines there is nothing but what is of this season's manufacture, and the policy of not carrying styles from one season to another prompts these closing prices. If you have any needs in the ready to wear line, you can supply it during this sale at a small price.

## EXPECT ANOTHER ENORMOUS CROWD

AT THE CHAUTAUQUA ALL DAY TOMORROW.

## CLOSING DAY OF ASSEMBLY

Three Strong Speakers on the Program: W. C. Buckner, W. G. Threlk, Dr. Watson and W. C. Buckner.

Tomorrow, the closing day of the 1906 Chautauqua, will be eventful in many ways. The program is exceptionally strong; another record attendance is anticipated should the weather be fair; plans for next year's assembly will be announced; and the making of arrangements started; and furthermore, another very interesting proposition will be laid before the people.

## SUNDAY, AUGUST 5

10:30 a. m.—Sermon, Rev. Gardner W. Threlk.

2:00 p. m.—Sacred concert, The Dixie Jubilee Concert Co.

2:30 p. m.—Sermon—"Fatherhood of God and Brotherhood of Man," Dr. James Watson.

4:15 p. m.—Vesper hymns, The Dixie Jubilee.

7:30 p. m.—Sacred prelude, The Dixie Jubilee.

8:00 p. m.—"The Searchlight Turned On," W. C. Buckner.

Rev. W. G. Threlk, who will preach the morning sermon, after opening hymns and prayer, is expected to call the people, one who comes for of reason, he preaches the teaching of Christ as they should be applied to every day life of this age, not as they were applied in the times of the Apostles. He is a logical thinker, a forceful talker, and above all, he possesses a sincere and sympathetic personality.

In the afternoon Dr. James Watson, the Quaker, speaks. He has attained great success at various Chautauquas and camp meetings this summer. After two lectures at Belvidere he was sought for an "extra" and in compliance with numberless requests he remained, delivering gratis his noted "The Five W's—Wine, Water, Women, Wit and Wisdom." The purpose of this treat was to raise money toward founding a school for poor boys in Cuba, in part as a memorial to his son, who was killed by an accident in this country at the age of twenty-one.

At the time Dr. Watson was in Cuba, a goodly-sized audience heard Dr. Watson this afternoon and were much pleased with him.

## "MAN WHO BUTTED IN" WAS REAL CAUSE

Of Trouble Last Tuesday, According To A Communication Received From Citizen Signifying Himself "Square Deal."

The following communication relating to the "street car incident" of the early part of the week has been received.

Editor "Gazette." Admitting that City Marshal W. H. Appleby may have acted in a hasty and ill-advised manner last Tuesday evening some of the things which are being said and have been said about that street car incident make a person who is disposed to be fair and reasonable most awfully tired.

In the first place it was not a case of mistaken identity. As the morning paper tried to show the very next day. On the contrary the whole trouble was precipitated by "The Man Who Butted In." The foundation for it was laid on the previous evening when the marshal, sitting in his window on North Main street for a few moments with his coat and collar removed, heard loud noises coming from a saloon across the way and decided to put a stop to it. After he had rapped on his window with his cane he waited to take a survey of the party making the unnecessary disturbance. As the group came out several said "Hello, Chief!" and passed on.

A whiskey agent from Milwaukee was disposed to be inquisitive. "What are YOU chief of?" he asked patronizingly of the officer. The question was ignored. "Are you chief of POLICE?" he continued, after somebody had nudged him and acquainted him with the identity of the man who had called the bar to time. "Well, I never saw a chief of police without his collar on," was his insolent rejoinder. That was the end of that incident.

The next evening, on the way to the Chautauqua grounds, the city marshal was required to pay his fare. When asked good naturedly "if the chief of police had to pay street car fare in Janesville," the youthful conductor replied in a manner which might have been interpreted as sneering "The chief of police cuts no ice here" or words to that effect. After reaching the end of the line the marshal decided not to visit the grounds and remained on the car. He was giving the conductor a little "roast" when who should step aboard and straightway butt into the conversation but

## LIGHTNING RODS TO BE MADE HERE SOON

Pottsville, Iowa, Parties Have Purchased Carpenter Shop of J. G. Wray.

Another infant industry is to be brought to life in Janesville within a week or ten days. A lightning rod factory, employing but a few hands to begin with, is to be launched in the building on North Franklin street, formerly occupied by a carpenter shop, by J. G. Wray. This has been purchased by E. G. Owen and Son of Pottsville, Iowa, the promoters and founders of the concern. Already much of the equipment has been shipped from Pottsville and some has even arrived. This is being installed and more is coming. Mr. and Mrs. E. G. Owen, were in the city yesterday looking for a purchasable residence.

## LAST DAY FOR THE NOMINATION PAPERS

Many Known Candidates Had Not Complied With Requirements Up to Noon Today.

At noon today only a comparatively small number of candidates for places on the several tickets had filed their nomination papers, but it was expected that the callers at the county clerk's office would be numerous this afternoon. Republican candidates who had turned in the long lists of signatures were: John L. Fisher and H. H. Blanchard who seek the district attorneyship; Howard W. Lee, candidate for county clerk; Charles Weirick, candidate for register of deeds; E. H. Ransom, Alvah D. Maxfield, candidates for sheriff; L. E. Cottle and Allen S. Baker, candidates for the office of assessor; Philip Norcross, candidate for the assembly from the second district; Simon Smith, candidate for the assembly from the third district. None of the democrats or social democrats had filed papers and Rev. Thomas Norcross, candidate for the nomination for assemblyman from the first district on the prohibition ticket, appeared to be the only representative of that party. All of the candidates for nominations that are to be contested to any extent at the primaries had long lists of signatures.

County Clerk Howard Lee announced that he will be at his office from 7 to 9 this evening to receive nomination papers which candidates may wish to file at the eleventh hour.

Newspaper Man Here: L. B. Conne, a man who has been engaged in newspaper work in Milwaukee, Oshkosh, Fond du Lac, and other cities of the state, was a pleasant caller at the Gazette office today. He was on his way to Pleasant to investigate a position he had received from one of the papers in that city.

## MASONIC HALL IS TO BE COMPLETED

OLD METHODIST CHURCH IS BEING REMODELED.

## EVERY DETAIL ARRANGED

When Complete Will Be One of the Finest in the State.

Men are at work remodeling the old Methodist Church at the corner of Main and Court streets into the new Masonic Hall and it is said by prominent masons that it will be one of the finest masonic halls in the state as far as beauty and arrangement is concerned. The main hall which is 54x76 feet is having locker rooms built on each side which are 17x54 feet and about ten feet high; on top of which will be built a neatly arranged balcony with plenty of room. The ceiling of this room has already been painted, because of the inability to reach it later without great trouble and the woodwork is of a dark walnut color and the plaster of a light color, making an attractive

## Great Cost of Baseball

Public Pays Over \$5,000,000 Annually In Support of Game.

Last Year 25,000,000 People, It Is Estimated, Saw Game.

One can say that hundreds of thousands of dollars are expended annually for baseball games and convey in a vague way what baseball expenditure means.

Presuming that 25,000,000 spectators witnessed baseball games in 1905, which is the estimate of one well known authority, it is fair to say that at least half of the 25,000,000 paid admission to the games. Suppose that each of this 12,500,000 paid 25 cents to witness his favorite sport. That would make a gross total of \$3,125,000 at the gate in one season. That begins to sound more like figures.

Now add to that the cost of the game, which was expended by each spectator where the games were played in large cities and the amount which was handed out to the peanut boy and the lemonade peddler, and an idea begins to form that baseball receipts accumulate quite a total even if it is the cheapest and most popular form of outdoor sport.

Nor is what the spectator pays to witness the games all that is expended during the year. Great factories work day and night to make baseballs, and men have acquired fortunes in placing their wares before the public. Hundreds of tailors are employed in making baseball uniforms, and scores of turners gain a livelihood turning out baseball bats, while the forests of the middle west have been ransacked to obtain the best timber to provide the players with sticks to smite them.

Put a million dollars more on top of the amount paid to see games and the mark has jumped over \$4,000,000.

THIRD BASEMAN HARTZELL, ST. LOUIS AMERICANS.

Roy A. Hartzell, the clever young third baseman of the St. Louis American league club, is a native of St. Louis, where he was born July 6, 1881. He started his professional career as a pitcher with the Logan club of the Eastern league in 1897. He began the season of 1900 as an outfielder and later as third baseman of the Peoria club and finished the season with the Denver club of the Western league. Last year he was considered the star infielder of the Western league and attracted national attention. After lively bidding by several major league clubs, the St. Louis club last fall succeeded in purchasing Hartzell's release for \$25,000.

Even that doesn't tell the story. Clubs expend large sums in travel. The railroads and the hotels are benefited. Spectators frequently journey long distances to witness matches between famous teams. At the world's championship series last fall there were several spectators who traveled all the way from California to the Atlantic coast to see the New York Giants and Philadelphia Athletics play for the championship.

The fact is that baseball costs the people of the United States more than \$5,000,000 annually, and the bill is growing heavier every year, but so small is the per capita expenditure and so great the enjoyment which is derived from the game that it is considered with less complaint and more open indication of real satisfaction than any "indirect tax" which is levied upon the community at large in behalf of a good time.

President Pullman of the National Baseball league recently issued the following contracts and releases:

Contracts—With Cincinnati, Charles Hall, John W. Deal and Frank Dean; with St. Louis, F. L. Beebe and T. Noonan.

Releases—By New York to Providence (Eastern league), Olla Neal; by Brooklyn to Newark (Eastern league), Charles Malay; by St. Louis, unconditionally, Joseph H. McCarthy.

It is about time some major league team had a mortgage on Shortstop Wagner of the Newark (N. J.) Eastern league team; it looks as though he may duplicate his namesake in the Pittsburgh Nationals.

## The Eel Editor Gives New Hints

How to Unhook a Willy Wriggler Without Tangling the Line.

It isn't so hard to catch an eel. Not infrequently you will land one when you are fishing for something else.

But getting him off the hook without having your line tangled and tied into innumerable hard knots—aye, that's the rub!

When Izak Walton wrote his treatise on the gentle art of angling he overlooked the eel. Yet the possibilities of this squirming fish in developing patience in the fisherman are infinite.

The average angler when he has hooked one can do nothing more than

WRONG WAY TO UNHOOK AN EEL.

rub his hand in the dirt all it is rough with grime, seize the eel by the neck and clamp him to death.

Meanwhile his line is all snarls and tangles.

But an ingenious angler, with the nervous system of the eel in mind, has discovered a better way.

The eel, properly handled, may be soothed and put into an immediate state of calm simply by rubbing him gently on the spinal column with a match or small stick.

The accompanying illustration, which is genuine, shows how it is done and should carry conviction to the most skeptical mind.

Indeed, no one who has hypnotized a crab by rubbing it between the eyes will doubt for a moment that the eel may somewhat similarly be put to sleep.

It is the only effective way to detach an eel from the hook. Try it.

All fishermen should hail this new discovery with loud acclaim, for Mr. Eel has long been a figurative thorn in their sides.

The eel's meat is so sweet and nourishing that he is always in demand, but the obstacles met in removing him from the hook have caused most anglers to look on him in the light of an intolerable nuisance.

As a matter of fact the writer has met some anglers who were not women, either—who would invariably cut their lines and cast hook and fish overboard when the fish proved to be one of the eel family.

Surely a monument or some other token of gratitude should be erected in honor of the discoverer of the new process of unhooking the wriggling delicacies.

One veteran eel catcher says it is a big help to use a fairly large hook when fishing for eels. He says the eels are unable to swallow the large hook, which, as a result, catches in his mouth and can be easily removed.

"Most of the trouble," he says, "comes from using a small hook. Then

Twenty Thousand Men Already Affect ed, Banks of Dissatisfied Workers Being Swelled by Hourly Accessions from Factories.

Helsingfors, Aug. 4.—The armored cruiser Pamjat Azova, whose crew mutinied off the Estonian coast spoke the steamer Salinea between this port and Reval.

The mutineers of the Pamjat Azova ordered the Salinea to stop and asked for news from Sveaborg, evidently with the intention of going there to help the mutineers.

When informed that the mutiny at Sveaborg was over, the Pamjat Azova was headed for Reval.

The battleships Slava and Czarevitch were sent from here in pursuit of the Pamjat Azova.

### Visit to Sveaborg.

Helsingfors, Aug. 4.—The correspondent of the press was permitted Friday to look over the fortress on the main island, as well as all the other fortifications overlooking the town, although the officials who complied with his request were careful not to allow him to see the guns.

The scenes proved the truth of the statements previously cabled that the mutineers had the upper hand in practically all the fortresses until the arrival of the warships.

Escorted by an officer, the correspondent was shown all the minor barracks and fortifications, and the wharf and neighboring quays, which bristled with machine guns. Flag-staffs had been splintered as if the mutineers had tried to shoot away the Russian colors. The most severe fire from the fortress was directed on the headquarters of the commander, who on the second day of the trouble was forced to seek shelter in a better protected place.

### Barracks in Ruins.

The barracks in the vicinity showed plainly the effects of the fighting. They are today nothing more than tottering ruins, upheld by iron girders. The church, in which hangs the memorials of the French and English bombardment of 1855 was struck several times, but it is evident that the mutineers did not wish to destroy the building in spite of the fact that none of its windows remain whole.

Results of the firing were seen on every hand, fragments of shrapnel chain shot and shells littering all the walkways. The fortress itself bore many signs of the bombardment, great rents in the walls, holes in the roof and destroyed windows telling their own tales.

The correspondent was not permitted to examine in detail the fortifications held by the rebels, as these form part of the national defense and are secret.

### Rebels Had Upper Hand.

There is no question that until the warships came up the government was powerless adequately to reply to the mutineers and was simply able to hold its positions. The commander had scarcely fled from his headquarters, leaving them a heap of fallen ruins, when the warships crept up the coast and opened fire. Taken unawares, without leaders and with but little food, the mutineers gave up.

It now transpires that there were two officers among the mutinous men, Lieut. Kobonsky and Lieut. Eniljanoff. The latter was wounded. Kobonsky gave himself up to the Bogatyr and asked pardon.

A special court is coming here from St. Petersburg next week to try the prisoners. One thousand men are confined in Helsingfors and Skatudden.

The total of the casualties is not yet known, but 650 men are missing. It is impossible to say how many were wounded. As previously cabled in these dispatches only five officers were killed.

### General Strike Has Begun.

St. Petersburg, Aug. 4.—St. Petersburg was in darkness Friday night. The employees of the electric lighting plants, always the earliest barometer record of political conditions, ceased work during the afternoon in obedience to the call for a general strike.

This call already has been obeyed by 2,000 factory hands in the capital. It will be impossible, however, to predict the success of this universal political strike until Monday, as the workmen in St. Petersburg and the provinces have two holidays, Saturday, which is the fete day of the dowager empress, and a great religious feast, and their regular holiday of Sunday.

The only other available index to the situation are the railroads. The railroad men have not heeded the call for a general strike, except in the case of an insignificant bottal line running to Sestroretsk and other shore resorts in the vicinity of St. Petersburg. The men of this road paraded the line, with the result that they had an important collision with Cossacks.

### May Establish Dictatorship.

In the meantime the fate of the Stolypin cabinet sways in the balance and Russia is upon the verge of disorders which may lead either to the reign of the military or the proletariat. It can be stated definitely that the first step toward a dictatorship may be taken Sunday or Monday by the nomination of Grand Duke Nicholas to the chief command of all the troops in Russia. This would virtually place him in control of all the disturbed districts of the empire where martial law has been proclaimed.

This matter was a subject of earnest

discussion during the interview between the emperor and Premier Stolypin Friday, from which the premier returned in a greatly vexed state of mind. The revolutions at Sveaborg and Cronstadt and the mutiny on board the cruiser Pamjat Azova gave the tone to the conversation between his majesty and the premier. These events, although they have all ended fortunately, apparently have left a strong impression upon the mind of the emperor.

The nomination of Grand Duke Nicholas to the post of commander-in-chief, if made, will be announced as "for the purpose of harmonizing the activity of all troops, without reference to political affairs," but Premier Stolypin is scarcely disposed to regard the nomination in this high light.

### Soldiers Patrol Streets.

Pickets of cavalry and infantry were the most conspicuous features on the streets of St. Petersburg Friday night. Business houses generally have boarded up their windows, as they did in the days of the great October strike. Practically all of the street cars in the city have stopped running, and the cab drivers are threatening to cease work.

A dispatch received from Sestroretsk says that heavy reinforcements are being poured in there, evidently in fear of an attack upon the government cartridge and small arm factory located in that suburb.

### Seven to Be Executed.

It was announced at the admiralty that the drumhead court-martial proceedings at Cronstad probably would be suspended with the execution of the seven ringleaders of the mutiny, who were condemned to death Thursday. The other mutineers will be subjected to trial by the regular court-martial which will be convened after the customary delays.

Among the civilian agitators for whom the police are searching are two ex-deputies. Their names are not given, but they are believed to be M. Onitko and M. Michael.

### Killed by Mutineers.

It has now been ascertained that the death list on board the cruiser Pamjat Azova included Capt. Sosinsky, two lieutenants, the chief engineer and the junior engineer, the surgeon, a midshipman and the chief petty officer. Captain of the Second Class Mosyart was mortally wounded. A priest and two lieutenants were slightly wounded. About 50 sailors were killed or wounded.

The three petty officers who organized the loyal sailors to retake possession of the ship have been singled out for imperial commendation. The mutineers will be court-martialed at Reval.

### Prepare for Labor Riots.

In anticipation of labor riots small steamers with quick-firing guns mounted on board are cruising up and down the Neva.

It is understood that some ex-deputies belonging to the labor party are among those arrested at Sveaborg and Cronstadt.

During the disorders at Cronstad the insurgents wore caps with black bands in order to distinguish them from the loyalists.

### Captain Escapes Death.

Capt. Krinsky had an almost miraculous escape from death at Cronstad. He was arrested by the mutineers and hurled up one of the broad avenues to where a court-martial had been hastily convened. The members of this court included civilians and some women. It condemned the captain to death, and the sentence was about to be carried out when the cry was raised that men of the Yenesel regiment were coming. Krinsky then made a dash for liberty and escaped. He was fired upon but not hurt.

### Arrest Sleeping Workmen.

A local newspaper publishes a dispatch from Yekaterinoslav saying that a force of police and two squadrons of dragoons entered the town Friday morning at three o'clock and arrested the ringleaders of the strike while they were in bed. When the workmen discovered this they gathered to the number of 4,000 and attempted to free their comrades. A collision with the troops ensued, during which a number of men were wounded. Many of the agitators were arrested.

### Fire in Prison Wood Yards.

Kharkov, Aug. 4.—Fire broke out in several large wood yards in the vicinity of the prison Friday. This evidently was a device on the part of the revolutionaries, who hoped to free political leaders during the confusion.

### Mob Attacks Policeman.

Kertch, Aug. 4.—A policeman was severely wounded here Friday while endeavoring to arrest Jewish youths who were distributing revolutionary proclamations among the soldiers. The policeman was recognized and felled by a sailor and was then trampled and stabbed by the mob.

### Kursk, Aug. 4.—An encounter took place here Friday between peasants and dragoons, during which six peasants were killed and three were wounded. Several shots were fired from the crowd, whereupon the dragoons answered with three volleys.

### Governor Is Bomb Victim.

Samara, Russia, Aug. 4.—The governor of this city was instantly killed Friday by a bomb thrown by an assassin who was subsequently arrested. The governor's head and feet were torn off by the explosion.

### Mutiny Put Down.

Helsingfors, Aug. 4.—An incipient mutiny broke out Friday on board the Russian cruiser Bogatyr. It was immediately put down with the arrest of 200 of the sailors on board.

### Lithographers Quit Work.

Minneapolis, Minn., Aug. 4.—Seventy-five lithographers employed in four printing houses in Minneapolis walked out Friday on a strike in response to the general strike order issued from the national headquarters of their union.

## FACTORY INSPECTION IS TO BE IMPROVED

England Is Forced to Take Radical Action by Disclosures in United States.

[SPECIAL TO THE GAZETTE.]

London, Aug. 4.—In view of the current agitation in the United States for a better government inspection of factories and other industrial establishments, especially as regards their cleanliness and sanitary arrangements, the annual report of the Chief Inspector of Factories in the United Kingdom just made public, may be found interesting. The figures contained in the report show the greatness of British industry and at the same time the magnitude of the work which the factory inspection bureau has to do. Two hundred and fifty thousand factories and workshops, employing to total of nearly five million persons, come within the provisions of the inspection law, and have to be looked after by the Chief Inspector and his assistants. It is a gigantic task, but the report seems to show that the work is well and thoroughly done. In the United Kingdom 355,065 visits of inspection were made last year, and 10,000 prosecutions were undertaken. Besides these, 352,234 medical inspections were made, and 54,043 defects in sanitation were discovered. The great majority of these were remedied to the satisfaction of the inspectors.

## TOTAL ABSTINENCE CATHOLICS TO MEET

Providence, Rhode Island, to be the Scene of the Gathering Next Week.

[SPECIAL TO THE GAZETTE.]

Providence, R. I., Aug. 4.—Arrangements are practically completed for the annual national convention of the Catholic Total Abstinence Union, which is to be held in this city next week. Present indications point to a large attendance of delegates from all sections of the country. Among the distinguished participants will be several bishops of the church. The sessions will begin Wednesday and continue through the remainder of the week.

## SPARKS FROM THE WIRES

The Mexican training ship Zaragoza has reached Kingston, Jamaica. The American Association of Retail Jewelers is in session at Rochester, N. Y.

The British Association for the Advancement of Science will meet at Winnipeg in 1909.

William E. Wheeler was hanged at Lexington, Va., for the murder of Henry J. Smith in August last.

The postoffice at Lestershire, N. Y., was entered by burglars and robbed of \$1,000 in stamps and \$75 in cash.

A death from yellow fever near Havana has been reported to the Louisiana board of health by its inspectors in Cuba.

Three train men were killed in a freight wreck on the Buffalo, Rochester and Pittsburg railroad near Harmony, Pa.

Barbara Vogel, a young woman victim of an assault in a Madison Wis., saloon a week ago, died at a hospital for the insane.

W. J. Cooke is dead in Memphis, Tenn., as a result of a fight at a pool room. Cooke, G. Wellington, a former Chicago man, was killed outright when the trouble started.

William Weber, a prominent government contractor, killed himself at Huntington, W. Va., by taking poison. Weber's wife committed suicide by drowning two months ago.

All the cargo on the United States collier Nero, stranded near Block Island, R. I., must be thrown overboard in order to float the craft. Admiral Evans says there is a chance to save the Nero.

Dr. Dudley A. Sargent, director of the Hemenway gymnasium, at Harvard, has received a commission from the Greek government to furnish information regarding American gymnastics.

## STATE NOTES

Mrs. Belle Lockhardt, formerly Miss Belle Lindsford, formerly a narrow escape from death while ascending in a balloon in the White City, Chicago. She fell from the balloon, and only the parachute, which she quickly grasped, saved her from death.

The program for the meeting of the physicians of the first district to be held in Kenosha on next Thursday, has been issued. The principal speakers will be Drs. Richard H. Brown, David Lieberthal of Chicago, S. C. Buchanan of Racine, and William Hamover of Delavan.

Menomonee has spent \$55,510.00 for school purposes in the last year. Of this amount \$34,376.77 was paid for teachers' wages. The total enrollment of students was 1,268, and the amount paid for tuition by nonresident pupils was \$3,478.83.

Andrew Arntson, rural mail carrier on route 4 from Menomonee, holds the record as the banner trout fisherman in Dunn county. He has caught 870 trout so far this season, and expects to reach the 1,000 mark before the close of the season. He has made a record of 1,000 or more annually for several years.

The gasoline explosion and narrow escape from death of six persons on the gasoline launch Tony, on Lake Winnebago, has raised an agitation against the operation of pleasure crafts without a regularly licensed engineer. It is altogether probable that a bill will be drawn and presented at the next session of the legislature covering such cases.

## Kinds of West.

The numerous kinds of west of which the effete east solemnly discourses are enough to bewilder a Philadelphia lawyer. It will assure you that besides "the middle west," a phrase it employs continually and with evident pleasure, there are an eastern west, a western west, a northern west and a southern west. Yet there is only one east, and hardly enough of that to swear by. The Californian.

## BUSINESS BOOMED BY IMMENSE CROPS

### FARM PROGRESS DURING JULY MOST GRATIFYING.

### LABOR SUPPLY IS SHORT

Lack of Farm Hands Causes Delay in Harvesting of Some Crops, While Cattle Output Is Curtailed to Some Extent.

New York, Aug. 4.—R. G. Dunn, & Co.'s Weekly Review of Trade says:

Aside from the seasonable dullness in wholesale departments, commercial activity is well maintained, and early preparations are made for autumn and winter business. August opened with no adverse developments in the trade situation, while crop progress during July was most favorable.

Trade reports are especially gratifying from the northwest and other points that are dependent upon agricultural results, but all sections of the nation enjoy great prosperity and there is scarcely a discordant note in any of the dispatches.

### Labor Supply Inadequate.

Scarcity of labor is the only serious complaint, output of coke being curtailed, and there is delay in harvesting some crops, while strikes retard the rebuilding of San Francisco, but, on the other hand, a slight modification of the 1903 scale has brought back 8,000 more bituminous coal miners and the threatened struggle at 33 paper mills has been averted, while advanced wages brought full activity in the textile industry.

Commodity prices are fairly steady, cheaper grain because of large crops being offset by strength in the leading materials of manufacture, while legislation in Brazil advanced coffee sharply.

Railway earnings in July were 8.9 per cent. larger than a year ago, and foreign commerce at this port shows gains of \$3,353,669 in imports, and \$483,006 in exports as compared with the same week last year.

### Too Much Business.

It is not often that managers of a leading industry are uneasy regarding the future because of too much business, yet that is becoming the situation at iron furnaces and steel mills. Orders on the books are far in excess of similar comparisons in earlier years, and there is a certainty of congestion if regular fall business is added.

New England footwear markets are quiet. Tanners report that shoe manufacturers are buying sole leather only to cover immediate needs, and the quiet market would result in concessions were it not for the light stocks and the pronounced strength of hides.

Commercial failures, this week in the United States are 180 against 216 last week, 192 the preceding week and 232 the corresponding week last year. Failures in Canada number 16 against 15 last week, 22 the preceding week, and 26 last year.

### Bradstreet's Report.

Bradstreet's report in part follows: Sentiment in general seems to have become decidedly more optimistic, practical assurances of heavy crop yields, the growing buoyancy of the iron and steel industry and the relatively heavy volume of orders booked in general lines for fall and winter requirements being the principal stimuli. Iron and steel plants, where not actually engaged in making repairs, are being worked to their utmost capacity, and the action of the principal producer in resuming dividends on its common stock exerted a salutary effect on sentiment.

Evidences multiply that the momentum already imparted to trade and industry will receive a further impetus, and that the year as a whole will surpass any previous period in the country's history.

## JUDA

Juda, Aug. 2.—A daughter was born to Mr. and Mrs. M. Blackford on Saturday.

Daniel Dunwiddle and Mr. James Davis were up from Brodhead to attend church services Sunday.

Ed. Moldenhauer and wife of Milwaukee are expected home for a visit.

Mr. and Mrs. David Zahn and family of Racine returned home Monday after a delightful visit with relatives.

Geo. Barnum was in Rockford on business Thursday.

Amos Smith was in Chicago several days last week.

Mrs. Charley Hall went to Waukegan to visit her sister, Mrs. Oscar Moldenhauer.

Ross Newman spent a few days in Monroe.

Mrs. Julia Newman of Monroe spent a few days in Juda visiting with Mrs. Samuel Lahr.

Born to Mr. and Mrs. Otis Andrick on Tuesday July 31, a daughter, Mrs. Louise Chadwick of Janesville returned home Monday after visiting here and at Monroe.

Dr. Frank Davis and Mrs. Lucinda Dunwiddle of Brodhead spent Thursday in Juda.

Mr. and Mrs. D. C. Patton were at Orangeville and Freeport for several days.

## English Most Widely Spoken.

The most extensively spoken language is Chinese, but as there are so many dialects in the language, and as these differ so greatly in the confines of Mongolia and Tibet from those around Peking, it is scarcely correct to say that the 282,000,000 Celestials all speak one language. Putting, therefore, China aside, the most spoken languages in the world are as follows, in millions: English, 120; German, 70; Russian, 68; Spanish, 14; Portuguese, 32.

## NORTHWEST NEEDS WORKMEN

Labor Situation in Minnesota Causes Worry Among the Farmers.

Minneapolis, Minn., Aug. 4.—A bumper crop in the northwest and no men to harvest it.

The farm labor situation in Minnesota to-day is the worst in the history of the state.

Fifteen thousand men are needed in Minnesota, Iowa and the two Dakotas and about a thousand are available. The wages offered by the farmers range from \$1.75 to \$3 a day and board, but the jobs go begging.

A thousand men are needed in Minneapolis at as high wages as are paid in the country, but the available men refuse to work.

All the railroads have made a special rate of \$6.50 to any point in the harvest belt and farmers are willing to pay the transportation for men they need.

## Fatal Fire in Texas.

Houston, Tex., Aug. 4.—W. I. Fletcher was instantly killed, Lee Brooks, a negro, was covered with burning alcohol and received burns which will prove fatal, and the entire building was gutted as a result of an explosion in the wholesale liquor house of Joppert & Co. Friday.

## Two Lieutenants Resign.

Washington, Aug. 4.—The war department has announced the acceptance of the resignation of Second Lieut. Clarence A. Eustaphie, Twenty-third Infantry, for the good of the service. The resignation of Lieut. Albert S. Odell, Eleventh cavalry, has also been accepted.

## Power of Good Acting.

Acting is a real art. It trades with our souls by the art of illusion. In the theater we can live over again our own lives, suffer even the torments of the damned, and that even after a good dinner and a motor waiting for us outside.—Observer, London.

## COOPER TO LEAVE NASHVILLE

Reports from Nashville, Tenn., the field of L. T. Cooper's work for the past three weeks, tell of a demonstration acclaiming the success of that young man that is without parallel in the history of the city. Cooper made the announcement a day or two ago that he was about to close his visit to the Tennessee city and since that time he has been fairly besieged at his headquarters by a clamorous populace. Hundreds of Nashvillians have been relieved from long-standing illnesses by the use of this young man's remedies and these, with many others who wished to see him before his departure, so crowded and jammed the drug store where he has established his headquarters that it was almost impossible to get either in or out.

Cooper, it will be remembered, is the man who created such a sensation at Minneapolis, St. Paul, St. Louis, Milwaukee and other large cities of the central-western states about a year ago with his remarkable remedies.

It is said that the relief his preparations afford is not confined to any one trouble, but that in cases of Stomach trouble, Kidney complaints, Catarrh, Rheumatism and Deafness his success has been uniform. From the stories related in the Southern city people who have been afflicted for years have found relief through the use of this young man's remedies and he has won the gratitude of untold hundreds in Central and Eastern Tennessee.

In the stories that have appeared of his work are mentioned the names of many people of prominence in Tennessee's capital city. Among these was B. B. Lasater, living at 1224 North Fourth Avenue.

Upon being interviewed in regard to the matter, he said: "For several years I was afflicted with a severe form of stomach trouble and with rheumatism. My stomach was never in good condition and for the past few months almost anything I attempted to eat disagreed with me. At times I had a good appetite and again the sight of food would nauseate me. I suffered a great deal of pain in the region of the stomach and was greatly bothered by an accumulation of gas shortly after eating anything. My rheumatism was also a source of great trouble. My arms were drawn and almost useless and large knots had formed on my hands and forearms which were exceedingly painful. I was persuaded by a friend to give the Cooper remedies a trial and have been using them for about three weeks. My stomach is in prime condition. I am able to eat with a relish and suffer no after effects as I did a few weeks ago. The pain in my arms is gone and the muscles are relaxed and growing stronger. You see those knots have almost disappeared and they are absolutely without soreness. The effects of this medicine appear very wonderful to me as I have tried many remedies without receiving any noticeable benefit. I am more than grateful to Mr. Cooper and like hundreds of others in this city feel that nothing can do will quite express how I feel toward him."

The sale of Cooper's preparations in Janesville has been so large as to be regarded by many as the phenomenal sale of B. B. Lasater's drug store, where the remedies are sold in this city there is said to be a large demand for them.
